Escazú Agreement Regional Agreement on Access to Information, Public Participation and Justice in Environmental Matters in Latin America and the Caribbean	Show all articles 4.3 Each Party shall adopt the necessary measures, of a legislative, regulatory, administrative or any other nature, in the framework of its domestic provisions, to guarantee the implementation of the provisions of the present Agreement.
			5.18 Each Party shall establish or designate one or more impartial entities or institutions with autonomy and independence to promote transparency in access to environmental information, to oversee compliance with rules, and monitor, report on and guarantee the right of access to information. Each Party may consider including or strengthening, as appropriate, sanctioning powers within the scope of the responsibilities of the aforementioned entities or institutions.
			6.1 Each Party shall guarantee, to the extent possible within available resources, that the competent authorities generate, collect, publicize and disseminate environmental information relevant to their functions in a systematic, proactive, timely, regular, accessible and comprehensible manner, and periodically update this information and encourage the disaggregation and decentralization of environmental information at the subnational and local levels. Each Party shall strengthen coordination between the different authorities of the State.
			7.1 Each Party shall ensure the public's right to participation and, for that purpose, commits to implement open and inclusive participation in environmental decision-making processes based on domestic and international normative frameworks.
			7.2 Each Party shall guarantee mechanisms for the participation of the public in decision-making processes, revisions, re-examinations or updates with respect to projects and activities, and in other processes for granting environmental permits that have or may have a significant impact on the environment, including when they may affect health.
			10.2 Each Party, in line with its capacities, may take, inter alia, the following measures:
			10.2.a train authorities and civil servants on environmental access rights;
			10.2.b develop and strengthen environmental law and access rights awareness-raising and capacity-building programmes for, inter alia, the public, judicial and administrative officials, national human rights institutions and jurists;
			10.2.c provide the competent institutions and entities with adequate equipment and resources;
			10.2.d promote education and training on, and raise public awareness of, environmental matters, through, inter alia, basic educational modules on access rights for students at all levels of education;
			10.2.e develop specific measures for persons or groups in vulnerable situations, such as providing interpreters or translators in languages other than official languages when necessary;
			10.2.f acknowledge the importance of associations, organizations or groups that train the public on or raise public awareness of access rights;
			10.2.g strengthen capabilities to collect, retain and evaluate environmental information.
